## Crossfield Junior Wheat Club Judging

The Crossfield Junior Wheat Club met in the U. F. A. hall on Saturday afternoon, November 16, where judging took place of the wheat samples produced from plots of the members under the direction of Mr. D. C. Hallman, of the Provincial Government, who has charge of the Wheat Club work in the Province.

The Crossfield Club have had a very successful season under their leader Mr. O. E. Jones and president Neil Laut. The members have worked hard, and attended all meetings when possible, so that the club and individuals would make the best possible showing. The standing of the individual members will be announced later as the record sheets of the members have just been completed and sent in for examination.

Seventeen members were in attendance, five coming down from the Olds Agriculture College with Mr. Hugh McPhall, B. A., district Agriculturist of the Olds School of Agriculture.

When the judging was completed the boys were placed in the following order for their respective samples of wheat: 1st, Neil Laut; 2nd, Kenneth McTavish; 3rd, E. A. Montgomery; 4th, Tom Milner; 5th, Raymond Motley, Acme; 6th, Clarence Riddell; 7th, Bert Rogers, Acme; 8th, Howard Rogers, Acme; 9th, John Yellowlees; 10th, George Hornack; 11th, H. R. May; 12th, Leon Mason; 13th, A. McCrimmon; 14th, K. C. Cochrane; 15th, Elmer Rogers, Carstairs; 16th, John Elhard; 17th, N. Hornack.

The judge Mr. Hallman, congratulated the boys for their very fine samples of wheat, stating he had not seen anything better during his judging in the various clubs in the province, and hoped to see exhibits sent to the Chicago Fair from the Crossfield Club. Mr. Hallman pointed out that the first prize wheat in this club weighed 67 and a half pounds. No 1 and that the various clubs of this province would produce approximately 180 thousand bushels of fine quality wheat this year which naturally brings into being a province wide elevation to a better quality of seed.

Mr. W. P. Pettigrew, representing the Alberta Pool which sponsors the Wheat Clubs, congratulated the club on the excellent quality of the wheat produced, and stressed that exhibits should be sent to the Chicago Fair. In closing he presented prizes to the winners of the best standing plots: 1st went to Ken. McTavish; 2nd to K. C. Cochrane.

Mr. Frank Foulds of the Dominion Seed Branch, Calgary, addressed the Club complimenting them for their fine showing, and gave them some very excellent pointers on conducting their meetings.

Mr. Hugh McPhall of the Olds Agriculture College also complimented the boys for the very excellent work they were doing, and he was of the opinion that the work of the club was the best of the six districts operating Junior Wheat Clubs. He pointed out that leadership was a big factor in

## This Plane Came to London—and Stayed!

The British parade a war-trophy—Swastika plainly visible on the tail-fin at the left—a German Messerschmitt brought down by anti-aircraft batteries, past the Houses of Parliament in London. German air losses over the British Isles have been enormous. During the 24 hours before this picture was taken from London at least 130 enemy bombers and fighters met the fate of this battered plane.

any club, and found Crossfield had a fine leader in Mr. O. E. Jones who was ably assisted by Mrs. Jones.

The last speaker was Mr. O. E. Jones, who stated that the past season had been very gratifying and with the co-operation of the club members they had made progress. The new season would, no doubt, find an even greater enthusiasm behind the Club. He thought probably that next year a reduction in acreage might be in order, and was of the opinion that it was better to cultivate a smaller acreage at a profit rather than cultivate larger acreage at a loss.

In closing, President Neil Laut extended the thanks of the Club to their leader, Mr. Jones, the judge and speakers, and expressed his appreciation to the Club members for their hearty co-operation during the past season.

## Fine Entertainment At Rodney Schoolhouse

On Tuesday evening Rodney schoolhouse was crowded with a happy gathering of families of the community. This was the first of a number of get together gatherings planned by the minister and ladies of the United Church.

Rev. H. V. Ellison gave a very interesting talk on Labrador which was illustrated with coloured slides, and some special funny slides were enjoyed by the large number of young people present. A community sing-song, through slides thrown on the screen, was greatly enjoyed by the crowd. Miss Ruth Richardson accompanied on the piano and Kenneth and Reginald Belslaw of Crossfield operated the lantern.

The ladies served a very fine lunch at the close. The feeling among the people was that more of these gatherings should be held.

**COME ON out to the BOARD of TRADE Meeting Monday, Nov. 25**

Church Parlor, at 8:30

## LOCALS

Mrs. N. G. Tweedle and Beverley Anne were visitors in Calgary over the week end.

Mr. H. N. Jones of Innisfail was a week-end visitor at the home of Mr. and Mrs. M. N. Jones.

Dick Patmore received the appointment as caretaker at the skating rink for the coming season.

The annual meeting of the Curling Club has been called Tuesday, Nov. 26, at 8 o'clock in curling rink.

Mr. A. S. Gough and Levi Siebert are the appointed delegates from Rosebud Municipality to the Municipal Convention in Calgary.

New Directories of the Mutual Telephone company have arrived and can be obtained at the office of the secretary.

Mrs. D. H. McFadyen is in town arranging for the necessary alterations and repairs to her newly acquired property.

Mrs. W. R. Emerson returned from hospital in Calgary on Tuesday and is convalescing after her recent operation.

Norman Johnson has moved his barber shop out of the Chronicle building and is now doing business one door south of his previous location.

The Junior Girls Auxiliary held a very successful Tea and Apron Sale at the home of Mrs. E. H. Waterhouse last Saturday afternoon, approximately \$22 being realized.

Among those attending the hockey match in Calgary Wednesday night were: Mr. and Mrs. J. M. Huston, Ernie Kinsey, Merle Heywood, Shorty Weber, George Lim, Hanley Schnell, Harry Wigle and Ken. Draglan.

An illustrated talk on "Foods for Health" and "Dry Cleaning in the Home" by Miss Vera Richards, is being held in the United Church parlor on Friday afternoon, the 22nd, at 2 o'clock, to be followed by a tea.

**Buy War Savings Certificates**

## PLANS COMPLETED FOR SKATING

The Village Council has completed plans to re-open the skating rink for the 1940-41 season, with Dick Patmore engaged as caretaker. E. Bills, D. W. Carmichael and W. K. Gish will assist the Village and should prove a valuable unit in working out ways and means to give the public the best entertainment possible out of the local budget and equipment. According to present plans, free skating will be available for the children 10 years and under from 4 to 6 on Tuesdays, Thursdays and Fridays. Hockey practice, 4:30 to 6, Wednesday, High school, and Monday, Juniors. Hockey games once a week. No charge for children under 12 years of age will be made for hockey games.

## ONE-WAY FARE FOR SOLDIERS

All ranks of the C.A.S.F., proceeding on leave during Christmas or New Year's will be able to secure a return ticket to their destination at the cost of one way fare. The duration of the leave will be six days and no more than 50 per cent of the strength of any unit, in any rank, will be permitted to be away at one time. The Defence Department expressly stipulates that whether leave can be granted will depend in all cases on the nature of the service being undertaken by the man concerned, the necessity of having certain types of training completed speedily, and the importance of the service from the point of view of the defence of Canada and of war conditions generally.

The Department adds: "The guiding factor in the consideration of leave privileges to men on Active Service must be the defence and safety of the country and the obligations we are under by virtue of our war commitments. These have been duly weighed and fully discussed and their influence is being observed in the decision now communicated."

## INDEPENDENTS CONVENE IN EDMONTON

Independent members of the Alberta legislature convened in Edmonton last Saturday. During the caucus a resolution was passed declaring the reported government loan of \$30,000 to the University of Alberta for extension of its radio facilities was intended to provide the government "with a means of disseminating political propaganda."

The resolution said: "According to newspaper reports, the Alberta government has guaranteed a loan of \$30,000 to the University of Alberta for the extension of its radio facilities."

"We are, of the opinion that at this time when the nation is faced with the problem of financing the war and trying by every means in its power to secure funds to prosecute its war effort more effectively, the government should not spend such a large sum of money on something which may well be dispensed with."

## Madden Murmurs

Ellen Roch spent the week end at her parental home.

Milford McEachern left Madden district to train at Red Deer.

Lita Stafford was home for the week end.

Mr. and Mrs. W. A. Tidball were Calgary visitors on Saturday.

Bill Haward was a Calgary visitor on Sunday.

Howard Baxter returned after spending a week in Calgary at his parental home.

Les Godlington and family are new members of the Madden district.

Angus Walsh is building a new home. We wonder what this means.

Henry Poffenroth is sporting a brand new Plymouth sedan.

A large crowd attended the dance at Madden, with Trochu music; proceeds going for the Beaver Dam Christmas Tree fund.

## NEWS FROM THE LOCAL ELEVATORS

Recent outgoing shipments of wheat has made some space available here. However, it is small and unless further shipments are made, very little activity will be noticed.

The Alberta Pacific shipped 12,000 bushels in the last ten days. The United Grain Growers have shipped four cars; their new 30,000 bushel annex will be commenced next Monday with a crew that expect to put it up in a week. The Alberta Pool shipped 10,000 bushels and the P. and H. three cars. The Midland and Pacific is filled at present with no recent shipments.

Shipment of 100,000 bushels of rough wheat could be made if the grain was available. Just how much of this can be had here depends on the farmers themselves. Those holding tough wheat might do well to make delivery now.

Junior Wheat Clubs and what it means to the average young man whether he produces wheat or not is many fold. The knowledge garnered in these wheat clubs is very valuable to any man no matter what his profession happens to be. To know all about wheat or any other grain, is one item that you will never go astray on.

A lot of these boys will be our future farmers, and others will be taking up other professions, but the knowledge they have gained in these community wheat clubs will remain with them as a valuable asset.

The Alberta Wheat Pool which sponsors the Wheat Clubs can look on with pride at the splendid results.

The Village have completed their schedule for the skating rink for the season 1940/41.

Some may think that the season admission is too high, but taking into consideration the expense in upkeep, management, and accessories they compare favorably with other community centers. The Village is not hoping for an operation profit, but sufficient to make skating facilities most enjoyable.

Citizens should always co-operate with the Village officials, in this way any grievance can be quickly ironed out and the best service rendered.

### RAIL GRADING OF HOGS

Carcase grading of hogs, which has recently become the only method of grading hogs in Canada, provides a more accurate system of determining value and quality.

One of the important items in grading hogs on the rail is the weight of the carcase. There is a fairly close relationship between the weight of the live hog and the weight of the carcase. Thus, in order to have Wiltshire sides of desirable weight—weighing 55 to 65 pounds—a carcase of from 143 to 168 pounds is required. This carcase weight is usually obtained from live hogs weighing 200 to 215 pounds on the farm.

Close attention to the weight of hogs at marketing time will give the producer added returns. A cheap home-made scale may be used plans for which can be obtained from the Department of Agriculture. By marketing live hogs of correct weight, the producer is unlikely to lose on grade because of under or overweight of the carcase.

Farmers often have occasion to find out how much grain is contained in a granary or bin. It is also useful to know how large a bin must be to hold a given amount of wheat. The necessary information is included here, so the reader should cut this out of the paper and keep it.

The first step is to find the cubical contents of the bin. For square or rectangular bins, the number of cubic feet can be found by multiplying the length x width x depth. For a round bin multiply the radius x radius x 3.14 x depth (the radius is one-half the diameter).

For example, suppose our bin is 8'6" and the grain is 6 feet deep, then:  
8'6" x 8'6" = 78 cubic feet.  
Then if we have a round bin 16 feet in diameter (radius 8 feet) with the grain 7 feet deep:  
8 x 8 x 3.14 x 7 = 1,406.72 cubic feet.  
In order to convert cubic feet to measured bushels, it is only necessary to multiply by 0.8. Therefore, our first bin contains 78 x 0.8 = 62.4 measured bushels. Our second bin contains 1,406.72 x 0.8 = 1,125.38 measured bushels. This is 1,407 x 0.8 = 1,125.6 measured bushels.

If it is desired to determine the number of bushels by weight, simply multiply the figure for measured bushels by the actual weight per bushel, and divide by the legal weight (wheat, 60 lb.; barley, 48 lb.; oats, 34 lb.). If in our first example, the grain was wheat weighing 55-lb. per bushel, we would have 62.4 x 55 = 3,432 bushels.

Problem: What would be the dimensions of a bin you would build for 2,000 bushels of barley weighing 48-lb. per bushel?

### DANGER FLARES ON ALBERTA ROADS

Fresh action designed to curb the accident danger on Alberta highways has been taken by the provincial authorities, according to information received by the Alberta Motor Association.

On numerous occasions accidents have been caused with serious or fatal results when a car has run into a disabled truck or other commercial vehicle on the highway.

While this was covered by a previous regulation along this line, a new regulation just past by the highway traffic board provides that every commercial or public service vehicle, such as trucks or buses, respectively, must carry a flare, lamp lantern or fuses at all times.

In case of a breakdown on the highway at night, such flare or

other light must be placed 100 feet in front and 100 feet to the rear of the disabled vehicle.

Another section provides that the light must be of such strength that it may be seen clear through ordinary conditions of visibility at a distance of 500 feet.

The need of proper warning steps regarding disabled cars has been before A.M.A. officials for some time while the new regulation is welcomed as a step in the right direction, especially when the volume of motor traffic on Alberta highways is steadily increasing.

There is no other tobacco JUST LIKE OLD CHUM

### Heroine Gets O.B.E.

Within 24 hours of her capture of a Nazi airman, Mrs. Norman Cardwell, was awarded the Medal of the Order of the British Empire, civil division. The airman landed by parachute near her home in Northeast England after his plane had been shot down. She walked up to him and told him to put his hands up. Then she took his revolver from him and marched behind him to the road where he was later handed over to the police and soldiers. Mrs. Cardwell is photographed with a four-legged friend near her home in the north east of England.

### An International Agreement

By International Convention, German officers held as Prisoners of War in Canada are entitled to receive certain pay which is recoverable from the German government. Similarly British and Canadian officers, held in Germany, are entitled to pay, recoverable from the Government in whose service they belong.

The governing International Convention is that relating to the treatment of Prisoners of War ratified by the Dominion of Canada on February 20th, 1933, and agreed to by some thirty-nine of the various powers and states. Article 23 provides that officers who are Prisoners of War shall receive certain pay. From this pay, states Lieut. Colonel H. Stethem, Assistant Director of Internment Operations, the officers pay for their clothing and food. There is actually no cash transaction, the money being placed to the credit of their accounts, against which they receive Camp token money or make Camp purchases which are subsequently paid for through their accounts. They receive pay according to their rank based on the German rates of pay in Reichsmarks, converted into sterling at a rate agreed on by the Governments of the United Kingdom and Germany, in accordance with Article 23 of the Convention. The rate of non-revenue from sterling to Canadian currency is that set by the Foreign Exchange Board.

Observance of international law in regard to Prisoners of War is insured by bi-monthly inspections made of all Internment Camps in Canada and in Germany by the protecting powers. Canadian interests are represented in Germany by the United States Embassy in Berlin and by the International Red Cross. German interests in Canada are represented by the Consul General of Switzerland and his representatives.

"It must be remembered", Lieut. Colonel Stethem adds, "that British Officers in Germany are also receiving their pay from the German authorities, and the same is recoverable from the British Government. Furthermore, it must be remembered that, for every German officer in Canada, there are, probably, four British Officers held in Germany, and the various people who suggest ill-treatment of these officers do not realize that such ill-treatment would provide an excuse for ill-treating many times the number of British officers and other ranks in Germany."

"The International Convention Relative to the Treatment of Prisoners of War is one of the few international laws relating to warfare which is, at least to some extent, being adhered to in the present conflict, possibly, because its Articles provide for the employment of a protecting power to ensure its enforcement, and, possibly, because the matters with which it deals provide a practical means of retaliation in the event of non-observance."

## The World of Wheat

By H. G. L. Strange

Many farmers have noticed a black spot, or smudge, on their wheat kernels, and they are wondering whether it is safe to use such grain for seed.

This problem has been worrying the Canadian Seed Growers' Association and plant pathologists ever since 1923, when grain was badly affected with the same trouble. The black spot is caused by one of several fungous diseases, most probably the one which rejoices in the name of Helminthosporium sativum.

Plant Pathologists tell us that this disease may or may not carry over from the infected seed to the next crop, but that if it does carry over then the next crop might be severely damaged. It is found however, that mercurial dusts sometimes partially or completely control this disease.

It is recommended, therefore, that farmers should treat a good sample of the grain they expect to use for seed with either Leytosa or Ceresan, and then should send about six ounces of this treated grain to the Dominion Seed Laboratory either at Winnipeg, Saskatoon or Calgary, for a germination test. If the germination is found to be less than 75%, my own advice would be that the grain should not be used to sow a crop,

but that disease-free seed should be procured.

Following factors have tended to raise price: Second government estimate of Canada's 1940 wheat crop shows a reduction of 14 million bushels — There have been no shipments of grain from Black Sea ports so far this season — Wet weather in most parts of Europe has delayed corn seeding — Domestic wheat supply of Japan is believed insufficient to meet requirements.

Following factors have tended to lower price: Russia forecasts improved agricultural production owing to neutrality in the war — Mr. Broomhall says the Argentine exportable surplus may be 137 million bushels — It is reported that there will be a good increase in grain acreage in the U.K. — France it is reported, is receiving shipments of grain from North Africa.

## British Fleet Air Arm Hits Hard

When the Fleet Air Arm swooped over Taranto harbor Monday night they dropped bombs virtually destroying two battleships, two cruisers and two auxiliary craft. One of the battleships, of the Littorio class, 35,000 tons, (above) was left with her bows under water and listing heavily.

The second battleship put out of action was of the Cavour type (above), a 23,622-ton warship of late design. This battleship was beached with her stern under water, and had a heavy list to starboard.

In the map are shown (1) Taranto, where the attack took place; (2) Durazzo; and (3) Porto Edda, which have been heavily bombed.

**Phone 66**

Pa: "It's a terrible thing. I sold my car and mortgaged my house and land, all to send my son to the university. And all he does there is smoke drink, and take girls out to parties."

Pa: "Oh, so you're regretting it?"

Pa: "Certainly. I should have gone myself."

Wife: "Did you notice that Mrs. Jones has another new hat?"  
John (Thinking fast): "Yes and if she were as attractive as you honey, she wouldn't have to depend on millinery so much."

Look at the label on your paper. It tells when your subscription is paid up to.

## Three of "Lucky Thirteen"

Of the lucky "Thirteen" children who survived the sinking of the torpedoed British liner en route to America three are shown above. They are Sonia Bach, 14; Edward Colin Richardson, 10, and Derek Bach, 9. Richardson, centre, played a hero's part trying to keep a spark of life in a dying nurse in his life-boat.

Prof. J. F. Day, of McGill, a survivor in the same life-boat praised the little fellow's heroism.
